

**VETERINARY EMERGENCY  
& CRITICAL CARE SOCIETY**

# **2014 SPRING SYMPOSIUM BIG ISLAND, HAWAII**

**MARCH 23-27, 2014  
FAIRMONT ORCHID HOTEL**

**17 HOURS OF CONTINUING  
EDUCATION FOR VETERINARIANS  
AND TECHNICIANS**

## FAIRMONT ORCHID HOTEL

The Fairmont Orchid, Hawaii is a 32-acre oceanfront luxury AAA Four Diamond resort located on the Kohala Coast Hawaii with a white sand lagoon, Hawaiian Spa, golf, tennis, six restaurants, and year-round children's program.

### Check-In and Checkout

Check-in: 3:00 PM

Check-out: 12:00 PM

### Parking

No Charge self, \$22 valet daily

### Pet Policy

Pets allowed

### Restaurants

Brown's Beach House  
Restaurant

Norio's Japanese Steakhouse &  
Sushi Bar

Luana Lounge

Hale Kai Restaurant

Brown's Deli

The Orchid Court (Breakfast)

Kahakai Bar (on the beach)

In-Room Dining

### The Spa without Walls

Award-winning Spa Without Walls lets you enjoy the splendor of Hawaii's tropical climate with 8 private outdoor waterfall hale (huts), 6 ocean-front hale, and 3 indoor treatment rooms. With the soothing sounds of water, the pleasant ocean breezes and the floral scent that fills the air on the Big Island, spa treatments integrate Hawaii's natural therapeutic environment and ancient healing arts into every experience. For additional details, please visit our website at [www.fairmont.com/fpc/fpcenroll.htm/](http://www.fairmont.com/fpc/fpcenroll.htm/).

## JOIN US FOR THE 2014 VECCS "MEMBERS ONLY" SPRING RECREATIONAL CONTINUING EDUCATION SYMPOSIUM

- Speakers - Internationally recognized "Subject Matter Experts"
- Practical EM/CC information for all levels
- Advanced, specialist level sessions offered
- Special lunchtime presentations
- Luxurious, upscale Fairmont Hawaiian beach resort and spa
- One of Hawaii's premier destination resort hotels
- Opportunities for Networking with Colleagues & Speakers
- Perfect mix of CE and personal time
- Unlimited outdoor recreation on 32 acres of manicured beach front grounds, championship golf courses, surfing, diving, fishing, and more
- Perfect venue for relaxation – white sandy beaches, luxurious spa, breathtaking sunsets from your hotel
- 17 hours CE credit

VECCS is committed to offering members the highest quality CE at both IVECCS and our Spring - Recreational CE event which will again be conducted in a spectacular location outside the continental United States. The Executive Board has arranged the 2014 VECCS Spring Symposium in one of the world's most popular destination locations, Hawaii.

This year's symposia will be held at the Fairmont Orchid on the "big island" of Hawaii, a breathtaking and luxurious destination resort property on one of Americas most unique islands. Enjoy endless white sandy beaches, sailing, reef diving, deep sea fishing, golfing, surfing, island tours and just relaxing in the sun.

If you have never joined us at a Spring CE meeting, you don't know what you are missing! There will be plenty of time between lecture sessions to enjoy local attractions, network with colleagues or just "hang out."

### FEATURED SPEAKERS:

Sarah Haldane, BVSc, DACVECC

Dez Hughes, BVSc, DACVECC

Tony Johnson, DVM, DACVECC

### ADJUNCT SPEAKERS:

Dennis Burkett, VMD, DACVECC, DACVIM (Cardiology)

Elke Rudloff, DVM, DACVECC

Be sure to register early since there is limited registration. Come join us!! Don't miss this outstanding VECCS CE program.

## COMPLIMENTARY BEACH CLUB ACTIVITIES

### **BOTANICAL TOUR**

Tour the beautifully landscaped grounds of The Fairmont Orchid.

### **CANOE RIDES**

A quick lesson in traditional Hawaiian canoe paddling.

### **DAILY HIKES**

Join a Hui Holokai Ambassador and explore historic fishponds, shelter caves, petroglyph fields or our very own Historical hike to learn about Hawaiian treasures.

### **HAWAIIAN ARTS AND CRAFTS**

Weave a bowl, basket, fish and other souvenirs from coconut fronds, pandanus leaves and more. Sign up by 12:00 Noon at the Beach Shack.

### **SNORKEL INTRODUCTION**

This 30-minute snorkel introduction is perfect for beginners or for those looking for a refresher.

### **TIDE POOL EDUCATION**

Discover the ocean's natural sanctuary to find an abundance of sea life. Water shoes, hats and sunscreen recommended.

## ADDITIONAL OFFERINGS

### **FUN & SUN ACTIVITY PASS**

Enjoy beach and water equipment throughout your stay. Available for purchase at the Front Desk, Concierge Desk, the Beach Shack, the Spa Without Walls and the Pool Kiosk. IVECCS Special two for the price of one adult card (\$75.00 value each), \$65 Children (ages 5-12), good for your entire stay.

### **CABANA EXPERIENCE**

Our poolside or beachside cabanas offer a private experience including your favorite snacks and refreshments. Rates from \$45/day.

### **FISHING ADVENTURE**

Learn Hawaiian fishing techniques aboard a double-hulled canoe with a Hui Holokai Ambassador.

### **SURF ADVENTURE**

Learn how to "Hang Ten" with a Hui Holokai Ambassador at our Pauoa Bay-based on surf conditions.

### **STAND UP PADDLE BOARD**

For fitness, exploration, or fun, make your reservation for a Stand Up Paddle Board adventure at the beach shack.

### **CANOE OR KAYAK ADVENTURE**

A snorkeling adventure by canoe or kayak with a Hui Holokai Ambassador guide will take you along the Kohala coastline.

## FEATURED SPEAKERS

**DEZ HUGHES, BVSc, DACVECC.** Dr. Hughes went to vet school in Liverpool. That done, he sped off to the University of Pennsylvania, in Philly where he did his internship and ECC residency. He was ACVECC board certified in 1994 then worked in Penn's Emergency Service for the next seven years. In 2001 he returned to set up the ECC service at the Royal Veterinary College where he also looked after their small animal internship and ECC residency programs. In 2007 he moved to Australia for three years where he worked as an ECC consultant and Adjunct Senior Lecturer at Massey University, NZ teaching an online course in Emergency and Critical Care. In 2011 he took up his current job as head of the ECC section at the University of Melbourne and recently became Associate Dean for eLearning.

**SARAH HALDANE, BVSc, DACVECC.** Dr. Haldane hails from the land of Oz, otherwise known variously as Down Under or the Lucky Country. She graduated from the University of Melbourne and after spending a year playing with all creatures great and small she wandered into an Emergency Centre one day and never made it out again. Sarah has worked in emergency and critical care referral practice for the last fifteen years, both in private practice and university hospitals. She is a Diplomate of the American College of Veterinary Emergency and Critical Care and has also been President of the Anaesthesia, Emergency and Critical Care chapter of the Australia and New Zealand College of Veterinary Scientists. Sarah is currently teaching emergency medicine from Massey University. Her clinical interests include pain recognition and management, clinical pharmacology and toxicology.

**TONY JOHNSON, DVM, DACVECC.** Dr. Johnson received his veterinary degree from Washington State University in 1996 and obtained board certification in the specialty of emergency medicine and critical care in 2003. He completed a residency program in Portland, Oregon prior to becoming an emergency specialist. He is currently a clinical assistant professor at Purdue University School of Veterinary Medicine and a consultant and editor for the Veterinary Information Network, an online community of over 45,000 veterinarians. He has lectured for several international veterinary conferences and is an active blogger, writer and non-exerciser. He is the recipient of the 2010 Small Animal Speaker of the Year award from the Western Veterinary Conference.

# SCIENTIFIC PROGRAM SCHEDULE

## MONDAY, MARCH 24

### **8:00-8:50am (Hughes) Getting the Most Out of Your Emergency Respiratory Examination**

An aged and sagacious professor of mine at Liverpool once told me that “Out of 100 mistakes, 99 are made by not seeing and 1 from not knowing.” You know, he was right! Excellent observational and clinical examination skills give you some great pointers as to what the underlying problem might be. Helped by a cornucopia of videos I will share some of my tips and tricks and encourage you all to do the same with our group. [CE Credit: 1 Hour](#)

### **9:10-10:00am (Hughes) Getting the Most Out of Your Emergency Cardiovascular Examination**

How accurately can we assess the intravascular volume status of an animal just using cardiovascular physical exam findings? How many different pulse abnormalities is it possible to feel? Do we still believe the old maxim that CRT is not a useful indicator of perfusion? How do we differentiate on PE between a patient with hypovolaemic shock vs. cardiogenic vs. obstructive vs. SIRS/septic shock? Let's have a chat about our experience as to how far we can take our assessment of the patient with CV compromise without machines that go ding. Oh, and with a dash of lactate for piquancy. [CE Credit: 1 Hour](#)

### **10:30-11:20am (Johnson) Take a Number: Injury Severity Scores**

APACHE, SOFA, APPLE - What are these, anyway? Things in your kitchen? NO! They are medical scoring systems. Why would you have a sofa in your kitchen? Maybe it's a place for the Apache to sit while he eats his apple. Scoring systems are used all the time in human medicine, but rarely in veterinary medicine. Find out what they are, how they might be useful and which ones have been validated for floppy widdle pets. [CE Credit: 1 Hour](#)

### **11:30am-12:30pm (Johnson) Advances in Traumatology**

There's more to treating trauma victims than steroids and 'shock dose fluids.' Learn how to do a FAST scan, how fluids are being given these days, how lactate can help guide your resuscitations, what the heck is 'compartment syndrome' and what central venous oxygen saturation can tell you to get the best outcomes for your trauma patients. [CE Credit: 1 Hour](#)

### **2:00-2:50pm (Haldane) Infection Control vs Antibiosis in the Intensive Care Unit**

What is the best way to prevent hospital acquired infections? How can we manage patients in this era of multi-drug resistant bacteria? These questions and more will be discussed to see what practical measures we can take to improve infection control in our hospitals. [CE Credit: 1 Hour](#)

**3:00-3:50pm (Haldane) Critical Care Pharmacology**  
Most critical care patients are on a multitude of drugs. This presentation will discuss how these agents can interact with each other and how the morbidity of the patient affects the efficacy of many commonly used drugs. [CE Credit: 1 Hour](#)

### **4:00-4:50pm (Johnson) Secret Pharmacology: Side Effects We Exploit for Therapeutic Benefit**

Why do we reach for metronidazole when we hear the word “diarrhea”? Find out about some surprising and potentially useful drug interactions and side effects that you might not know about. What magical things does furosemide also do and why might a non-cardiac patient respond to it? [CE Credit: 1 Hour](#)

### **6:30 PM WELCOME RECEPTION**

FOOD AND DRINK PROVIDED

*Hawaiian sunset included!*

## TUESDAY, MARCH 25

### **8:00-8:50am (Hughes) Understanding the Pathophysiology of Transvascular Fluid Homeostasis**

How concerned are we regarding the potential demise of the hydroxyethyl starches? Or are you from Europe where they have already been withdrawn? Can we smile confidently in the face of hypoalbuminemia? We will exercise our brains with some in-depth pathophysiology that will (hopefully) leave us all feeling much more comfortable. Just Saying “No” to colloids. Most of the time. [CE Credit: 1 Hour](#)

### **9:10-10:00am (Hughes) Fluid Therapy with Lung Disease: Above All, Do No Harm**

We need our alveoli to remain fluid free so that gas exchange is not compromised. The microvascular barrier in the lungs is normally more permeable to large molecules than other tissues so limiting hydrostatic pressure is vital. We have no sensitive diagnostic tests for measuring extravascular lung water so by the time we notice tachypnea, dyspnea or hypoxia we are already behind the 8 ball. We will discuss the benefits vs. the risks of restricted fluid therapy in animals with lung disease. [CE Credit: 1 Hour](#)

### **10:30-11:20am (Burkett) ACVECC Small Animal Journal(s) Year in Review: Most Impactful and Useful Updates for the Busy Clinician.**

Year in Review sessions have been very popular at the fall IVECCS meetings in the past likely because it gives busy clinicians an opportunity to hear and discuss some of the “more important” emergency and critical care related publications over the

preceding year. Unfortunately, due to logistical reasons the determination of “more important”, the number of references reviewed and the number that can be presented is done by one individual. This clearly limits the comprehensiveness of the journals reviewed, the manuscripts that are included and evaluated, and the actual presentation. For the IVECCS Spring Meeting 2014 this year a summary of the top 4-6 articles reviewed at IVECCS 2013 will be presented. [CE Credit: 1 Hour](#)

**11:45am-12:45pm LUNCH TIME LECTURES**  
**Additional Fee Required - See details on this page.**

## WEDNESDAY, MARCH 26

**NO LECTURES...HAVE FUN!!**

## THURSDAY, MARCH 27

**8-8:50am (Johnson) Avoiding the Twin Traps: Overtreatment and Medical Nihilism**

After you've been at ER medicine a while, you might start to question our ability to snatch anyone from the jaws of death anymore. The flip side of this is treating a dead horse, hoping to make it rise from the dead. One version of the Hippocratic oath states: 'I will apply, for the benefit of the sick, all measures that are required, avoiding those twin traps of overtreatment and therapeutic nihilism.' Here is my recipe for towing that line – something I struggle with every day. [CE Credit: 1 Hour](#)

**9:10-10:00am (Johnson) How Vets Think: Cognitive Bias In Medicine**

Your brain is a medical and mathematical computer, capable of objective decision-making and laser-like focus based on the best evidence, right? WRONG! Learn the many ways your puny brain can lead you into the reeds and endanger your patients. From closing your differential list too soon, to only selecting tests that confirm what you think is going on, to the overuse of Occam's Razor, you are royally messing up every day! The book *How Doctor's Think* by Jerome Groopman would be a great read on the plane over and forms the basis for this session. Learn fun things like what is an availability heuristic and can you make a wicked awesome mojito with it? [CE Credit: 1 Hour](#)

**10:30am-12:20pm (Rudloff, Hughes, Haldane, Johnson, et al) Case based discussion and other sundry topics. [CE Credit: 2 Hours](#)**

**12:45-1:45pm LUNCH TIME LECTURE**  
**Additional Fee Required - See details on this page.**

## LUNCH SPECIAL SESSIONS

**EXTRA FEE REQUIRED - \$35/EACH - LUNCH INCLUDED**

**TUESDAY - (Burkett) Bureaucratic Disorders: What Else Besides the Medicine Do You Need to Know to Be Successful**

In this presentation we will define leadership, identify a few traits every leader should develop and show the impact leadership can have on your life and the lives of those you lead. We will also present strategies for successful communication in today's complex workplace environment. The composition of the workforce has transformed over the years, and integrating differences in gender, race, and ethnicity is vital to the success of a business. Recently, another factor has been recognized as significant: age diversity. As a result of such things as delayed retirement, second careers, and a faltering economy, the age range of employees can be anywhere from 16 to 60, and everywhere in between. We now face four generations of individuals each having been raised with distinct technologies and lifestyles. If we can find a way to understand and appreciate the differences, we will be able to attract and retain the best talent, minimize conflict and create a highly functioning team. The goal of this program is to emphasize the skills needed for improving communication, not only within the veterinary healthcare team, but also during client interaction. The ultimate result is a well-balanced team atmosphere that will directly and indirectly have a positive impact on client satisfaction. We hope to create awareness for various communication challenges and discuss strategies on how to become most effective in communicating with team members, supervisors, and clients. In closing we will present an overview of the guiding philosophy that underscores the CULTURE of leadership and communication we are trying to create within our hospital. [CE Credit: 1 Hour](#)

**TUESDAY - (Haldane) Gastrointestinal critical care Resident/specialist level but open to all who sign up!** Whether you call it the “silent killer” or the “shock organ”, the health of the gastrointestinal tract has a profound effect on the well being of our critically ill patients. Disruption of normal GI function can cause significant co-morbidity so we will look at ways of keeping the GI tract happy in intensive care patients. [CE Credit: 1 Hour](#)

**THURSDAY - (Hughes) Lactate comes of age: new insights into lactate metabolism and its use in fluid resuscitation**

*Resident/specialist level but open to all who sign up!* Lactate is good for you! How could it be conserved across so many species (crocodiles to llamas to people) if it was a bad thing? Lactate production allows rapid energy production and ensures a continuous cellular energy supply when oxygen delivery is compromised. And, get this: lactate does not cause acidosis, it protects against it! Lactate has finally come of age with the realization that for certain patient groups it can be used to guide fluid therapy. [CE Credit: 1 Hour](#)

## SCIENTIFIC PROGRAM

Must be a VECCS Member in good standing to register for the Scientific Program. **If you are a current member for 2013, you will need to renew your membership for 2014 when submitting your registration form.** New members are welcome and may join at this time to be eligible. See attached Registration Form (Part B) for details. Note the early registration deadline of December 31, 2013. Complete and return the Registration Form as soon as possible to secure your registration. The Scientific Program is limited to approximately 175 attendees. NOTE: Companion badges do NOT allow entry to scientific sessions. Daily refreshment breaks will be provided.

## REGISTRATION CANCELLATION POLICY

There are specific cancellation fees for the Scientific Program.

- On/Before December 31, 2013 - \$50 Fee
- January 1, 2014 - February 7, 2014 - \$100 Fee
- After February 7, 2014 - No Refund

## TRAVEL RESERVATIONS

An airline request form is included in this brochure (see registration form) and we encourage booking your airline through our Meeting Planner. They will make every effort to obtain the least expensive and most convenient method of travel for you. Kona International Airport is the closest to the hotel.

## TRANSPORT

Transfer service round trip airport/hotel is \$115 per person. Travel time from the airport to the Fairmont Orchid Hotel is about 30 minutes. Pick up time at the hotel for your departure is scheduled at time of your arrival. Please go to [www.2014springce.iveccs.org](http://www.2014springce.iveccs.org) to schedule your transfer online.

You can also book your reservations by emailing [meetings@veccs.org](mailto:meetings@veccs.org). The following will be needed:

ARRIVAL: Date of Arrival – City of Departure – Airline – Flight Number – Time of Arrival

DEPARTURE: Date of Departure – City (Kona) – Airline – Flight Number – Time of Departure.

## WELCOME RECEPTION

Welcome Reception Monday night. Will include the traditional VECCS full buffet with drinks and entertainment. A must attend!

## IMPORTANT CONTACTS

VECCS Office/Registration Information  
(800) 948-3227 OR (210) 698-5575;  
(210) 698-7138 fax  
[info@veccs.org](mailto:info@veccs.org); [www.veccs.org](http://www.veccs.org)

Air/Car Rental/Hotel:  
(800) 344-8456 or (210) 490-2400; (210) 491-9484 fax  
[meetings@veccs.org](mailto:meetings@veccs.org)

## HOTEL RESERVATIONS

**Make your reservations at the Fairmont Orchid online at [www.2014springce.iveccs.org](http://www.2014springce.iveccs.org). Click on the “Hotel/Travel” tab.**

Special VECCS Group room rates are valid March 23-28, 2014.

Hotel agrees to extend the Group Rate (five days after peak departure) based on availability.

Anyone wanting dates outside our block, please contact Sandra at [meeting@veccs.org](mailto:meeting@veccs.org).

**Two Nights room and tax (13.416%) deposit due at the time of booking and cancellation policy is 14 days prior to arrival.**

INCLUDES:

- Complimentary use of the Health Club
- Complimentary WIFI Internet Access: One device per room
- Two for the price of one adult “Fun & Sun” activity card(\$75.00 value each)

Please note that a baggage fee and maid service will not be charged at the time of booking but will be added at check-out per hotel policy.

## ROOM RATES (Single/Double)

- **Garden View:** \$269.00/per night
- **Partial Ocean View:** \$319.00/per night
- **Full Ocean View:** \$349.00/per night

All rates are room only – tax rate is 13.416%

If you are unable to book a particular room type or requested dates, please contact Sandra at [meetings@veccs.org](mailto:meetings@veccs.org).

NOTE: An additional fee of \$125.00 will be charged for those registrations NOT STAYING in the Fairmont Orchid room block. To receive the rates and inclusions above, reservations must be made through link on the Spring Symposium website. The \$125 additional fee is due to the fact, as with most all other conferences, in order to achieve a discounted rate for our registrants and preferred rates for meeting space, we must guarantee a specified number of rooms will be booked at the hotel. If this room block is not filled, VECCS is contractually obligated to pay the hotel the difference and pay additional meeting room charges.

# VECCS 2014 SPRING SYMPOSIUM REGISTRATION FORM

Please type or print clearly. Use one form per registrant. Be sure to fill out this form completely. Total the amount for each part, enter the totals in the summary box and indicate your payment method. Enclose payment and mail or fax to address below.

## PART A PROGRAM REGISTRATION

REGISTRATION CATEGORY	ON OR BEFORE 12/31/13	BETWEEN 1/1/14 & 2/7/14	AFTER 2/7/14
